DR. JAMES' long practice in New Orleans, and

proficiency. Thousands of testimonials could be
produced by the Doctor, from persons whom he has
successfully treated, but the delicacy of the subject
prevents the publication of names.

Electropathy.

To all those who desire Treatment upon my System
of Practice for the Cure of their Diseases.

THIS is to certify that I have given Prof.
W. F. Douglass a full course of lectures upon the
subject of Electropathy, and have fully instructed
him in the general and direct application of Electro-
dynamism as a Diagnostic and Therapeutic agent. I
have also examined him with reference to his Physi-
ological and Pathological attainments, and find him
thoroughly qualified therefor. I therefore ap-
point him as my successor, to practice upon my
system of Therapeutics, and commend him to the
entire confidence of all those who desire skillful
treatment for their diseases.

DR. CHAMBERLIN.

The application of Electro-physiology to the human
system for diseases by medical men in our
country, have never before, by accident produced
such favorable results as were expected, hence
practitioners, not knowing that in its application
it was governed by fixed and immutable laws, have
had their confidence in such an agent lessened upon
almost each application of their way. Recent
demonstrations, however, in our own city, and in
neighboring places, have produced results the most
convincing, that when applied in accordance with the
principles regulating it to the human system, it re-
sults in the cure of the most stubborn and chronic
diseases, as when so applied it invariably results in the
cure of the following:

The diseases are respectfully requested to call on
me at No. 304 Third street, Dayton, O. Physicians
who have objections to make against the practice,
are requested to address me in full, and state their
objections, and I will, as soon as the weather will admit,
address them in person, and show them the results of
the practice, and meet their objections and show more fully
the claims this science has as a Therapeutic for human
life.

Successor to Dr. Chamberlin.

The character of Swan's Manual is so well known,
that it would seem entirely unnecessary, at this
time, to say a word in commendation of it. The
present edition is believed to be much superior, in
every respect, to any heretofore published, and
the publisher would especially recommend it
to the attention of Members of the Bar,
Probate Judges, and Executors and Administrators.

man Democrats will bear this in mind, and pass
the word.

IT'S Show Cases for Sale. Enquire at P

THE FAIR GROUNDS.—The Fair Ground on the
Kier Park, north of the city, has already be-
come a place of great attraction. A large num-
ber of horses are already in training there
morning and evening; and the place is visited
every evening by a great number of ladies and
gentlemen. Indeed, it is already looked upon
by our people as an "institution." We are in-
formed by those who know that several of our
fair townsmen are accustomed themselves to
ride the saddle, with the intention of securing
some of the elegant prizes in store for those
who excel in equestrianism at the Fair. They
seem determined to keep the prizes at home
against all lady comers!

MILITARY.—The Encampment.—At a meeting
of the commissioned officers of the First Regi-
ment, on Wednesday evening, a committee was
appointed by Col. King to make the necessary
arrangements for the renting of such booths as
may be needed to supply the camp and visit-
ors with such articles as are allowed to be sold
on the camp ground. The committee consists
of Captains Miller, Cain, Egry, Schreick and
Lieut. Crow. Applicants will apply to either
of the above named committee men.

WE took a ride and a bird's eye view of
the country from here to Indianapolis, with
that capital Conductor, Whitney, on Wednes-
day. The corn which looked so unpromising
six weeks ago, now promises a pretty good
crop. Beyond Indianapolis we were told the
corn looks better and better as far as it is grown,
not having been injured by the frost. A gen-
tleman who is introducing a mole plow for the
purpose of draining wet and clay lands in
Illinois, informed us that the crops are very
fine in that State as well as in Iowa. Fruit and
potatoes are abundant and the people much
encouraged.

Indianapolis is improving faster than ever,
and a number of very fine stone front buildings
are going up. Among the finest are the Govern-
ment buildings, and some large stone houses
on Washington street. We should like to have
taken a general survey of the City by daylight,
but we had to return in the evening, and came
home in four hours. We stepped into the
Theatre a few minutes before we started, and
took a look at it, as well as the Marsh troupe,
that is delighting full houses every night.

They have improved since they last visited
Dayton, and will return here next week. The
theatre is a noble building, very handsomely
furnished throughout. The splendid scenery and
dresses of the Juveniles showed off to great
advantage.

THE FOOT BRIDGE.—Mr. A. A. Andrews has
the foot bridge placed across Mad River, op-
posite the upper basin, which is on the most
direct route to the National Fair Grounds,
north of the city. The bridge will be a great
accommodation to the public who desire to visit
the grounds, and will be free from this time
until the commencement of the Fair. We no-
ticed that a great many persons availed them-
selves of the accommodation last evening.

WE have a report—we cannot ascertain
how much truth there is in it—that two chil-
dren in the eastern part of the city the other
day, who had eaten some of the leaves of the
tree known as "the tree of paradise," were taken
sick soon after, and died in a few hours. A
valuable horse, also, belonging to the father of
the children, is said to have eaten the leaves,
and died shortly afterward.

LONGEVITY.—Mr. Henry H. Worman, of this
city yesterday received a letter from his father
who resides in Dammes, Germany, and who has
reached the great age of one hundred and four-
teen years! The centenarian writes a neat
legible, steady hand, and is able to wait upon
himself and perform light labor.

The congregation of the United
Brethren Church, in the neighborhood of
Greensdale, intend assembling "beneath
the forest shade" on to-morrow, for the pur-
pose of holding a picnic. We learn that the
preliminaries have been so arranged as to
render the occasion an agreeable and
pleasant one to all who may attend.

"The collar" which our Gazette neighbor
wears chafes him badly. It irritates him, the
more since he have called public attention to it.
In this he is not unlike the little boy who cut
his finger; he did not mind it until he saw the
blood, when he took on at a furious rate.

OTIS & Co. have purchased two new
conduits. They are the most easy and con-
venient vehicles in the omnibus line.

The Phillips House is exceedingly well
patronized. To use a "bus expression" it is
running full all the time!

White Sulphur Springs

The Season will close at the White Sulphur
by a grand party, commencing on the 1st and
ending on the 3d day of September. "The
best of the wine will be reserved to the last of
the season," and we may expect the most bril-
liant time at the White Sulphur on the 1st, 2d
and 3d prox., ever before inaugurated in the
West. Of course the people will be in at the
grand close.

ALEX. F. HUME, Esq.

This estimable gentleman and eminent jurist,
who recently received the nomination for Quar-
termaster Judge from the Democracy of But-
ler, Erie and DeWitt counties, was in this city
yesterday. We say he "recently" received the
nomination; "for his nomination is equivalent to
an election." Mr. H. possesses every qualification
to fit him for the Bench to which he will be
elevated this fall. We are gratified to learn from
Mr. H., who certainly has had a very good op-
portunity of ascertaining, that the disaffection
and dishonesty of one or two prominent Demo-
crats in old Butler will not have the effect they
and their allies, the Black Republicans, seek—
that of distracting and defeating the honest
men on the Democratic ticket.

WE do not wonder that the Journal dis-
likes to have its Know Nothing antecedents
called up just at this time. They are annoying.
It is notorious that the Journal was a very rank
Know Nothing paper in 1854; and it was res-
ponsible for getting up its share—be the same
more or less—of the murderous excitement then
directed against the foreign born in this
country; and it is, to the extent of the influ-
ence it wielded, responsible for the same
condition of rovelry and murderous attacks
upon foreigners in Philadelphia and Baltimore.
This execrable conduct is the legitimate fruit
growing from the principle which the Journal
advocated in 1854, and which it is now so an-
xious to conceal. It has certainly great im-
pudence to bring to the denial of what is true in
fact and logic. Its assurance is one pretend-
ing to be a champion for adopted citizens ought
to bring upon it the contempt of all intelligent
men who know its antecedents.

THE Journal makes a great fuss about
the position of the Empire and certain prominent
Democrats. This is a favorite play of our
neighbor. He invariably resorts to such little
ding-dong when in a tight place, to divert at-
tention from his "operations" in another direc-
tion—like the female bragg, "you please, you
flutters along the path through the thicket to
deceive the trout boys from her young! The
Deacon would divert us and the public from the
felonious condition of the opposition in this coun-
ty to the "status" of his party which gives him
real trouble.

Some newspaper men, who had the mis-
fortune to be placed between the raking fire of
two contemporary, compared himself to a sack
of hay between two axes who were constantly
bitting at it. The comparison was not
elegant; it was rather odious; but it was doubt-
less just to the point. We hope we will be ex-
cused for reproducing it here. Its pertinence
will be acknowledged by the readers of the
Dayton papers.

WE will endeavor to relieve the Gazette of
its fears about our feeling toward foreigners by
saying that we are not and never was a Know
Nothing; never had any idea of being one; we
do not intend to be one; and "constitutionally"
not down on the odious system, and will not
as the Republicans did, ever join in a wicked
crusade against the foreign born, because it is
policy to do so, and because office can be gained
by it. We are opposed to the system on prin-
ciple—a quality which never interferes with the
Gazette and its miserable placemen, when they
have an object to gain by its avoidance.

It is a little remarkable that the Em-
pire should know so much about the feelings of
the Republicans in regard to their ticket.

Not at all, Mr. Journal, Republicans do
not hesitate to "ouss" the ticket; it indicates
that their "phiblics is hurt;" it does. We
know that much, certainly.

A Good Idea.—We understand that several
of our liberal and spirited farmers have offered
to help feed the many mouths that will require
providing for at the coming encampment, by
supplying potatoes, beans, meat, &c.

This is right. Many of our military cannot
afford to lose more than their time, to engage
in their military duties.

Lawrence Van Buren is the Democratic
candidate for Representative in Knox County,
Ohio, and Isaac P. Beum is the nominee for
Treasurer. Mr. Van Buren was formerly in
the Legislature, and was an intelligent and use-
ful member of that body. We look for a good
result in old Knox this year.

THE GREAT EASTON.—This beautiful prodigy,
according to the last accounts from Europe, is
nearly completed, and will sail from England
on the 1st of September. Her dimensions and
tonnage are thus given: in a Parliamentary re-
turn just issued:

Length 607 ft.

Breadth 28 ft.

Depth of hold 31 ft.

Tonnage exclusive of engine-room 13,344

Gross tonnage 18,915

THE Commercial of this morning gives
evidence of bad condition. It has not recovered
from the terrible blizzard administered to it
yesterday by its Republican cotemporary of this
city.

THE Gazette has a penchant for daring
every body. It goes about butting at every thing
animate and inanimate. "Weas and tars" are
doing their work upon the Suez Canal of the
Gazette.

Several important errors occurred in the
report of the meeting of the School Board, as
published in the morning papers. It will be
found correct in the Empire of to-day.

THE Gazette says "the ex-knight of
master's crib." Judging from the manner in
which the Gazette pulls at its load we would say
that it knoweth its master's lash.

On Monday trains on the Dayton & Michi-
gan Road will commence running regularly be-
tween Dayton and Toledo. See advertisement.

We saw one of the policemen yesterday
taking a drunken woman to the watch house.
She was a pitiable creature.

General E. Eastbrooke has been nomi-
nated as a delegate in Congress by the Democracy
of Nebraska Territory.

The Hon. Granville F. Berkeley, one of the
most celebrated speakers of England, will visit
this country this fall.

We are having a "spell of weather"—a
bad spell the ladies say.

Too Fast.—The Third street, Town Clock is
7 minutes faster than Dayton time.
